As a candidate for the State House of Representatives, 46th District, I represent the many voices, the many communities, and the many thoughts of the North Shore of Oahu. All that I have done has prepared me for this unique and special job. I am committed to our children, our community, our kupuna and our way of life. I care about our future. I have worked diligently to sustain and preserve the unique beauty, the economic health and our way of life on the North Shore. The North Shore is a diverse place and in this community I was born and raised by hard working parents who worked for the sugar plantation. I went to school in the community and now my children are growing up in the same playgrounds I played in. The people from the North Shore know that I will listen to them, that I will work hard for them and that I will represent them with dignity, honor and integrity. My track records show that I have represented them well in the past, including the seniors, small business owners, farmers, surfers, environmentalists, educators, nonprofit leaderships, parents of young children, plantation retirees, and more. My track records also show that I have worked and collaborated well with corporations, unions, government agencies and leaderships, developers, and with State Representatives and Senators. I have delivered on my words in the past and I will continue to deliver as the State Representative for the 46th District.
